This model is NOT for commercial use either, nor is it 'Public Domain'  
Please see original readme for more information.*

### Texture Information

This download contains an updated version of the Virgin Trains Class 47 No.47841. It has been updated on the version 4 model by Ian Jenkins. All .eng and .wag files have been kept the same, so there will be no issues with previous versions installed. Sounds and cab are aliased to those from either Great Eastern/North Wales Coast/Scottish Capital Express by Making Tracks. If you do not have any of these add ons, please use alternative sounds. Thanks to Ian Jenkins for the superb Class 47 model.

### Installation Notes

Extract the .exe file and follow the instructions on the installer. The installer will automatically detect where your MSTS directory is. If for some reason this is incorrect, please correct this before continuing to Install.

The Sounds & Cabview are setup to work with those from either Great Eastern/Scottish Capital Express/ North Wales Coast routes by Making Tracks. If you do not have any of these routes, then you will need to find alternative sounds on UKTS.

If you have any issues please contact me via the forums [username:backfoot2002].

Thank you for downloading.

***DISCLAIMER: I am not responsible for any damage to your system, please backup files BEFORE making a new installation, as it is much easier to correct errors that may occur.***
