Class 158 No.156477 in First ScotRail Livery
Released March 2009 for UKTrainsim

Model Created by Ben Laws
Textures by Anton Courtney-May

ALL Copyrights belong to their respective owners.
This model is NOT for commercial use either, nor is it 'Public Domain'

Texture Information: -

This is a new version of the livery. I have used better techniques to improve on the old livery to help it look more photorealistic. The repaint uses 2048x2048 textures to achieve the highest detail.
The texture work has been created using a mixture of Paintshop Pro 7 & Adobe Photoshop v8 CS.

Installation Notes: -

Extract the .exe file and follow the instructions on the installer. The installer will automatically detect where your MSTS directory is. If for some reason this is incorrect, please correct this before continuing to install.

You will require the Great Eastern Route to be installed for the sounds. This is from Making Tracks

The cabview is by Ben laws and the File ID is: 8859. Alternatively you can click on the URL below to take you straight to the download.

http://www.uktrainsim.com/filelib-info.php?form_fileid=8859

The download includes a consist, so you can load up MSTS and start driving.

If you have any issues please email antoncm@btinternet.com or contact me via the forums [username: backfoot2002].

Thank you for downloading.

DISCLAIMER: I am not responsible for any damage to your system , please backup files BEFORE making a new installation, as it is much easier to correct errors that may occur. I'm sure that it should be fine though
