### **Texture Information: -**

This is an updated version of 47817 using the new v4.0 model. The .eng files have been kept the same to reduce problems with activities. DIT loco also included.

### **Installation Notes: -**

Extract the .exe file and follow the instructions on the installer. The installer will automatically detect where your MSTs directory is. If for some reason this is incorrect, please correct this before continuing to install.

Both the Sounds and Cabview are setup to work with those from Great Eastern. If you do not have Great Eastern, you will need to download alternative sounds.

If you have any issues please email [antoncm@btinternet.com](mailto:antoncm@btinternet.com) or contact me via the forums [username: backfoot2002].

Thank you for downloading.

***DISCLAIMER: I am not responsible for any damage to your system , please backup files BEFORE making a new installation, as it is much easier to correct errors that may occur. I'm sure that it should be fine though***
