Installation Notes

Extract the .exe file and follow the instructions on the installer. The installer will automatically detect where your MSTs directory is. If for some reason this is incorrect, please correct this before continuing to Install.

The Sounds & Cabview are setup to work with those from either Great Eastern/Scottish Capital Express/ North Wales Coast routes by Making Tracks. If you do not have any of these routes, then you will need to find alternative sounds on UKTS.

If you have any issues please email antoncm@btinternet.com or contact me via the forums [username: backfoot2002].
