

# NP Yard Work for Cimarron Pacific Route

In this short but action-packed scenario you will have to do a lot of Monday morning yard duties at Cimarron.

It is set in the early 1900s and you will be in charge of a 2-8-0.

This scenario has been built using a lot of freeware and two payware packages. You can also use RW\_Tools to substitute any missing or unwanted rolling stock items.

## **Add-ons needed to run this scenario:**

*If you do not want to download and install quite so many files: With the help of Mike Simpson's (donationware) RW\_Tools suite of utilities you can quite easily substitute any piece of equipment used in this or any other scenario. Please read on here for more information about RW\_Tools: [www.rstools.info](http://www.rstools.info)*

## **Required Route Add-on:**

This scenario was written for **Gary Gardner's Cimarron & Pacific Railroad** route, version 1 of July 2011.
