

Train Simulator 2013

Brighton Mainline scenario pack.

Thank you for downloading this small scenario pack. I've made every effort to make it as real as possible, taking times and headcodes from open source train time sites such as headcodes.info and trains.im.

To install, extract the contents of the zip file to a folder that you can find easily or the desktop. Navigate to where your Railworks directory is and find the Utilities program. Go to the package manager tab, install, and find where you've saved the RWP. If you can't find your Railworks directory, go to my documents and copy the following at the top address bar:

C:\Program Files (x86)\Steam\steamapps\common\railworks

Hope you all enjoy the scenarios 😊

Scenario: Brighton Voyager: Part 1

Train: Class 220 Virgin

Operation Princess saw the introduction of the Virgin Voyager. In this scenario, you drive the last leg of a Voyager service to Brighton as it comes off of the spur from Kensington Olympia.

Scenario: Brighton Voyager: Part 2

Train: Class 221 Virgin

Part 2 sees you start up a Super Voyager that was stabled in Brighton for the night before taking it into the station for the first leg of its journey.

Scenario: Not So Bright(on)

Train: Class 377 First Capital Connect

It's a murky evening in Brighton and you're tasked with driving the Thameslink service as far as East Croydon.

Scenario: Southern Metro

Train: Class 455 Southern

It's early in the morning and the line is very busy as expected. You take the all stopping peak service from London Victoria to Coulsdon Town. Formerly named **Tattenham Stopper** for those who have played a similar scenario.

Scenario: The New Recruit

Train: Class 101 BR Green

A 'what if...' scenario. Hastings Diesels has completed the restoration of a 5 coach class 101 set. Taking charge of its maiden voyage since withdrawal, you journey up the mainline on a scenic drive from Brighton to London Victoria.
