Installation

These scenarios are packaged in the same ".rwp" file. Install it through Train Simulator 2017 package manager that you will find in your railworks folder (Utilities.exe).

Important note

There is an issue with the DMCL and DMCL_nd green reskins in Marleyman's Class 101 DMU livery pack: no model is showing up in the editor. To fix that, please install the two files that are included with these scenarios.

Thanks

I'd like to thank all route and rolling stock/reskin creators.

Thanks to:

- Ralf Kroneberg for the German translations.

To report any problem or feedback, please send an email to railworks@beluxtrains.net.

Have fun !
